MEMORANDUM FOR: See Distribution

FROM: [redacted] STAT
Chief, Legislation Division, OGC

SUBJECT: Legislative Programs for the First Session of the Ninety-Eighth Congress

1. The Office of Management and Budget requires that the head of each Federal agency submit a proposed legislative program for Administration clearance each fall for the session of Congress which begins the following January. This memorandum initiates the process of formulating the Central Intelligence Agency legislative program for the First Session of the Ninety-Eighth Congress, and the Agency's contribution to the Intelligence Community program that will also be submitted by the DCI.

2. The following guidelines are provided to aid your component in the preparation of proposals for inclusion in the legislative program.

-- It is not necessary to repeat items in the current legislative program, which is attached for your information. Appropriate items not brought to resolution during the Ninety-Seventh Congress will be carried over.

-- It is not necessary to submit specific statutory language, or to specify a statute to be amended. A description of each problem or goal, accompanied by an explanation of why it is thought that legislation is necessary to solve or achieve it, is sufficient. It would also be helpful to have an outline of testimony to be presented in support of each proposal, and an indication of any potential problems (e.g., security, cover, etc.) in pursuing a suggestion through the legislative process.

-- All suggestions should also be accompanied by your component's views as to whether or not the proposal has Intelligence Community applicability.
